Marathon Electric's "Parts Plus" Program

Marathon Electric is pleased to announce the continued formation of our "Parts Plus" program for Marathon Electric motor service parts.

All motor service parts inquiries for Marathon Electric motors will be referred to one of the below listed Marathon Electric Parts distributors, located strategically throughout the United States and Canada. Parts distributors locations and contact information is listed below.

Marathon Electric has equipped all of the parts distributors with the necessary systems to research parts data for our motors. However, we will no longer provide service parts for motors over 10 years old, as this information is no longer available in Marathon's database.
